FIR Reference: Minister's (Schedule, Line List # Column)	Local Government	2012	2011	2010	2009
91 0206 35 1.1 a)	Operating costs for governance and corporate management as a percentage of total municipal operating costs.	8.6%	9.2%	9.4%	10.6%
91 0206 45 1.1 b)	Total costs for governance and corporate management as a percentage of total municipal costs.	6.9%	7.5%	7.6%	

NOTES & KEY FACTORS FOR UNDERSTANDING RESULTS:

The Town of Tecumseh provides centralized corporate support for services such as payroll, accounting and information technology for all departments and boards. A centralized support model may result in a higher measurement than a decentralized model where more costs are allocated directly to service areas.

REFERENCE:

- The formulas for efficiency measures were revised in 2009 to reflect changes in the reporting of expenses consistent with accrual accounting concepts. New total cost measures were introduced and revised in 2010. Total costs mean operating costs as defined in MPMP, plus amortization and interest on long term debt, less revenue received from other municipalities for tangible capital assets.
- Starting with the 2012 reporting year, municipalities that report interest on long term debt for a service in the Financial Information Return may report an additional, optional measure to the public. This optional measure nets out interest on long term debt from total costs in the numerator of the measure.

NOTES & KEY FACTORS FOR UNDERSTANDING RESULTS:

Police services are provided under contract with the Ontario Provincial Police (OPP). Contracted force includes .17 Inspector, .47 Staff Sergeant, 3.56 Sergeants and 28.33 constables for a total uniformed complement of 32.53 members. (2011 - 32.53 members)

- ¹ As of 2009, the efficiency measures for police services do not include expenses for prisoner transportation or court security since expenses for these services are being uploaded to the province over a number of years. The efficiency measures for police services align with effectiveness measures based on crime rates.
- ² Statistics Canada has expanded the definition of violent crime. Therefore, prior years are not comparable unless restated.

NOTES & KEY FACTORS FOR UNDERSTANDING RESULTS:

4.1 a) & b) These measures can vary significantly based on the value of construction activity in any given year. The 2012 measures were impacted by two permits issued, for a large medical centre and for a seniors' complex, totalling \$22 million. Had these two permits not been issued these measures would change from \$7.99 and \$8.11 to \$23.51 and \$23.84 respectively.

REFERENCE:

- MPMP measures for building permits and inspections services were introduced in 2011.
- Starting with the 2012 reporting year, municipalities that report interest on long term debt for a service in the Financial Information Return may report an additional, optional measure to the public. This optional measure nets out interest on long term debt from total costs in the numerator of the measure.

NOTES & KEY FACTORS FOR UNDERSTANDING RESULTS:

Wages and vehicle maintenance costs for Public Works staff are not separated by type of duties. This would result in a higher operating cost figure compared to municipalities that allocate costs on another basis. * **Roads have been rated as part of a 2008 Roads Needs Study.**

NOTES & KEY FACTORS FOR UNDERSTANDING RESULTS:

7.1 a) The Town contributes to the City of Windsor sanitary sewer trunk construction costs. In 2011 and 2010 the Town contributed **\$370,745** and **\$2,827,999** respectively. These costs are treated as operating costs as the Town has no ownership of the trunks. Had these costs not been incurred the Operating costs/per km. of wastewater main would be **\$10,111.23** and **\$8,227.62** for 2011 and 2010 respectively. Other measures would have a similar impact.

*Sewage is treated by the City of Windsor.

NOTES & KEY FACTORS FOR UNDERSTANDING RESULTS:

The Town incurred unusual pumping station repair costs in 2010. In addition, the Brighton Road pumping station was replaced by an expanded facility in 2009; amortization costs have caused an increase in this measure.

NOTES & KEY FACTORS FOR UNDERSTANDING RESULTS:

9.2 a), 9.2 b), 9.3 a) and 9.3 b) are significantly impacted in 2012 as a result of a loss on disposal from watermains that had to be replaced earlier than anticipated due to works arising from the DRIC project.

92 7359 07	11.9	Square metres of outdoor recreation facility space per 1,000 persons (municipally owned).	115.6	115.6	115.6	115.6	115.6

NOTES & KEY FACTORS FOR UNDERSTANDING RESULTS:

Operation costs for recreation facilities per person are higher in 2011 & 2010 as a result of some major repairs made in those years. **2010 to 2007 comparative numbers for 11.9 Square metres of outdoor recreation facility space per 1,000 persons have been restated to account for an error in the unit of measure previously used**

REFERENCE:

- The formulas for efficiency measures were revised in 2009 to reflect changes in the reporting of expenses consistent with accrual accounting concepts. New total cost measures were introduced and revised in 2010. Total costs mean operating costs as defined in MPMP, plus amortization and interest on long term debt, less revenue received from other municipalities for tangible capital assets.
- Starting with the 2012 reporting year, municipalities that report interest on long term debt for a service in the Financial Information Return may report an additional, optional measure to the public. This optional measure nets out interest on long term debt from total costs in the numerator of the measure. **2011 and 2010 results have been restated.**

NOTES & KEY FACTORS FOR UNDERSTANDING RESULTS:

There are 6,807 hectares of farm land in the municipality. Agricultural land is a resource that needs to be protected for future use. Once taken out of active production, farmland is usually lost forever. In 2007, the measure for the location of new development was redefined for greater accuracy.
